

Cole J. Scott

301.455.9244 | coles2025@gmail.com

Executive Summary: Computer Science student with hands-on experience building software through research, hackathons, and technical programs. Experience developing machine learning models, data-driven applications, and software solutions using Python and Java while strengthening my foundation in object-oriented programming and software engineering principles. Passionate about solving challenging problems, learning new technologies, and building reliable software that creates meaningful impact. Enjoy collaborating on team-based projects and continuously improving through curiosity, feedback, and hands-on experience.

EDUCATION

Hampton University

Bachelor of Computer Science

Major: Computer Science

GPA: 4.07; Computer Science GPA: 4.1; Honor: Deans List

Relevant Coursework: Calculus I; Computer Programming I&II

Hampton, VA

May 2029

PROFESSIONAL EXPERIENCE

CodePath, *TechFellow* – Hampton, VA

Jul 2026 – Present

- Selected as 1 of 3 CodePath tutors for Intro to Computer Science, supporting 2 weekly labs and 2 lectures while holding office hours to mentor students in programming, debugging, and core computer science concepts.

Greenwood Project, *Participant* – Remote

Jul 2026 – Present

- Selected for the Greenwood Project Fintech Academy, where I will strengthen my computer science foundation through fintech systems, technical problem-solving, and applied skills relevant to software engineering and AI

SGX3 Coding Institute, *Participant* – Remote

Jun 2026

- Selected for SGX3 Coding Institute, where I completed hands-on training in Git, Python, machine learning, cloud computing, and high-performance computing while strengthening technical problem-solving and portfolio development

University of Maryland (NES LAB), *Intern* – College Park, MD

Sep 2024 – Apr 2025

- Collaborated as a team to evaluate the effects of zinc on the stability and integrity of polyphosphate-accumulating organisms in anaerobic digestion at the Nutrient Energy and Smart Lab facility on campus
- Delivered multiple research article presentations to mentor, demonstrating analytical skills and subject matter expertise
- Conducted a Symposium presentation to all the upcoming Science and Tech students, as well as current students who attended Oxon Hill High School

PROFESSIONAL DEVELOPMENT & ACADEMIC EXPERIENCES

Hackathon - Nanoverse, *Participant* – Remote

Jun 2026

- Trained an XGBoost model to forecast PageRank trends in a nanotechnology knowledge graph. Built a streamlined pipeline for data prep, feature engineering, and evaluation with high predictive accuracy

Grade Producer (Inheritance), *Developer* – Hampton, VA.

Apr 2026

- Created a grade-processing system using inheritance to organize assignments, compute averages, and generate final course grades

Hampton University STEM Weekend - Hackathon, *Participant* – Hampton, VA

Mar 2026

- Collaborated on a kitchen management app that tracks real-time inventory, flags low-stock items, and predicts potential food waste. Built features to monitor household supplies and provide actionable suggestions to reduce waste

Palindrome Tester (Stacks & Queues), *Developer* – Hampton, VA

Mar 2026

- Built a palindrome checker using stacks and queues to compare character order and validate string symmetry

Tic-Tac-Toe (Multidimensional Array), *Developer* – Hampton, VA

Jul 2026

- Developed a Tic-Tac-Toe game using a 2D array to manage board state, detect wins, and handle player turns

Coding Competition - International Collegiate Programming Contest (ICPC), *Competitor* – Hampton, VA

Nov 2025

- Selected as 1 of 6 freshmen, competing on a 3-member team tackling algorithmic programming questions by applying classroom concepts to answer real-life scenarios using Java

LEADERSHIP & OTHER ACTIVITIES

Black Students in Tech, *Founder (Incoming)* – Hampton, VA

Jan 2027

Men's Caucus, *Member* – Hampton, VA

Dec 2025 – Present

National Society of Black Engineers, *Member* – Hampton, VA

Aug 2025 – Present

Association for Computing Machinery, *Treasurer* – Hampton, VA

Aug 2025 – Present

Cyber Club, *Treasurer* – Hampton, VA

Aug 2025 – Present

Maryland General Assembly Official Citation, *Official Citation for Exemplary Leadership and Service* – Prince George's County, MD

Jun 2026

ADMI Conference w/ Hack-a-thon – Orangeburg, SC

CERTIFICATIONS & INTERESTS

Core Competencies: Machine Learning, Data Structures, Algorithms, Full-Stack Development, AI Modeling, Inheritance/OOP, Stacks & Queues, Multidimensional Arrays

Certifications: Python [Kaggle], CodePath Residence Course [Hampton University, Dec 2025], AI Professional [Google]

Personal Interests: Basketball, Violin, Video Games, Painting, Baking
